

Black Diamond Segment: SE 288th/291st St to SE Green Valley Rd

What does this segment look like today?

One lane in each direction.

SE 288th/291st Street

SE Green Valley Road

What are the problems?

Safety: A small portion of this segment near the Roberts Drive and Ravensdale Road intersection is part of a high accident corridor. There are angled intersections creating safety issues.

Traffic Backups: There is frequent truck traffic and limited opportunities to pass slower vehicles.
